

GeoMx CLDN4 vs T+B neighborhood

Source PR 251 · results/leftover_spatial/tables/geomx_correlations.csv · no invented p.

Immune AOIs in the same series are NS for CLDN4 vs T+B ($\rho=-0.180$, $n=47$, $p=0.23$) and are not drawn as a hit. All-AOI ρ mixes compartment; tumor-AOI is the cleaner extra.
