

CLDN4-first scRNA combinations that recover $\rho < 0$

Source PR 290 · [methods/scrna_cldn4_combo/tables/highlighted_combos.tsv](#) · no invented p.

Full-pool primary mixed grid is weaker (N=145, $\rho=-0.137$, $p=0.129$) and is not claimed as the answer. These two highlighted combos are the extras named in the request.
